Hibiscus Enriched Aqua-Collagen-Gel

1.75oz (50g) \$45

One of Hawaii's most beautiful and potent herbal formulas based on the Hibiscus flower enhances the well loved Aqua-Collagen-Gel line to produce Hibiscus-Enriched Aqua-Collagen-Gel, prized for its anti-aging power and its exquisite aromatherapy fragrance of citrus, orange and yuzu.

This light pink-colored deep moisturizing gel has key ingredients that fight free radicals and inhibit the natural aging process of the skin. Polyphenols lead, supplemented by Vitamin C, Co enzyme Q10, and the essence of the Hibiscus fight free radicals and sun damage. The result is a formula that evens skin tone and improves circulation. An aromatherapy effect relaxes your mind while the Hibiscus-Enriched Aqua-Collagen-Gel rejuvenates the skin. For the best results, use morning and night.
